5 R+D+I & QUALITY CONTROL

5. R+D+I & QUALITY CONTROL

More than 25% of our resources are devoted to innovation. In addition, all our products pass an exhaustive quality control to guarantee their results.

6 COMMITTED TO THE ENVIRONMENT

This versatility and personalization of varnishes is not only a service that falls on the production but also on the responsibility of the same once manufactured. That is why we have certifications that certify us as a company with eco-friendly products that meet all the requirements necessary to help the environment with non-harmful products.

UNE EN ISO 9001:15
(Sistema de Gestión de Calidad)

UNE EN ISO 14001:15
(Sistema de Gestión Ambiental)

6. COMMITTED TO THE ENVIRONMENT

7 PRODUCTS

7. PRODUCTS

100% NON-VOLATILE COMPOUNDS

Characterized by being composed of 100% solids with 0 emissions. They present drying without evaporation (fast drying). Its main applications are by roller or spray.

SOLVENT-BASED

They are the most standardized products on the market and we have been working with them since the beginning, being pioneers in the ultraviolet branch since 1986. This type of products allows us to offer more versatility with respect to the customer's requirements, offering them improvements in physical-chemical characteristics and higher qualities in our large number of products, which reaches more than 2000 varieties personalised by customers.

WATER-BASED

This product line is characterized mainly by the fact that its main base is water. It is a type of varnish very attractive and respectful with the environment reason why we bet for it to offer that ecological guarantee to our clients and to collaborate with the environment. Among its different advantages is important to highlight its fast drying, mild odours and high resistance to alkalinity. It is valid for both exteriors and interiors.

POWDER COATINGS

This line has a wide range of colours and finishes. In addition to being an ecological paint, its powder format allows no waste to be generated so the application is efficient and without losses. It presents high resistance to corrosion with great hardness and resistance to sunlight.

8 INFINITE APPLICATIONS

8. INFINITE APPLICATIONS

The industrial segments for the application are very varied and as our products do not contain heavy metals, our range of application in different sectors with more restrictive regulations is wide:

Toys for children

In hospitals

In children's furniture

Bells

Domes

Knobs

Mouldings and profiles

Doors

Coffins and trunks

Outdoor and indoor furniture

Snow and ski boards

Parquet

Kitchens and bathrooms

Among others
